<ul style="list-style-type: none"> • Dr. Kurczek was an excellent teacher who always put a lot of effort into his teaching. He made the class fun and always kept us busy with intriguing assignments. I was always excited for this class and genuinely enjoyed it. I heard many complaints from other students in different MOI classes but I really enjoyed mine. • Often times I was confused by the way the class was taught. And when given instruction it was often confusing on what we were supposed to be doing and required more questions to be asked to clarify what we were doing. Everything was on the syllabus and it helped clear up some confusion by reading that after being given instruction • Don't fully understand the benefit of MOI. Course material seemed to be random and irrelevant.
